DIRECTORS' REPORT

Your Directors present their report on the Credit Union for the financial year ended 30 June 2020.

DIRECTORS

The names of the Directors in office at any time during or since the end of the year are:

PM Nolan
A Field
RK Mills
J Moss

DAJ Rootes
CJ Shepherd
PA Woodward (Appointed 30 October 2019)
J Gray (Resigned 1 April 2020)

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

ASSOCIATE DIRECTOR

Mr Peter Woodward has been an Associate Director since the start of the financial year and was appointed as a full Director on 30 October 2019.

COMPANY SECRETARY

The following person held the position of company secretary at the end of the financial year:

Mr Matthew Bow – Mr Bow has worked for Macquarie Credit Union Limited for the past fourteen years and was appointed the General Manager of the Credit Union on 19 November 2007. He was also appointed company secretary on 19 November 2007.

PRINCIPAL ACTIVITIES

The principal activities of the Credit Union during the year were the provision of financial services to members in the form of taking deposits and giving financial accommodation as prescribed by the constitution. There were no significant changes in the nature of the Credit Union's activities during the year.

OPERATING RESULTS

The profit of the Credit Union for the financial year after providing for income tax was \$270,000 (2019 - \$272,000).

REVIEW OF OPERATIONS

The Credit Union recorded a profit (after tax) of \$270,000 compared to \$272,000 in the 2019 year. The directors are satisfied with the result given the challenging economic conditions that prevail upon the financial services industry and continued low interest rate environment that Australia is experiencing.

Profit before income tax expense has decreased by \$26,000 (7%) to 345,000 (2019 - \$371,000).

Interest revenue has decreased by \$385,000 (3.1%) to \$3,948,000 due to four cuts in interest rates during the year. Interest expense decreased by \$258,000 (17.8%) to \$1,195,000.

Other revenue has increased by \$153,000 (35%) to \$590,000 due to an increase in government subsidies due to COVID-19. Employee benefits expense remained unchanged at \$1,190,000 and other expenses have increased by \$3,000 to \$1,328,000.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

DIRECTORS' REPORT (Continued)

REVIEW OF OPERATIONS (Continued)

There were no significant changes in the operations of the Credit Union, other than the impact of the Coronavirus (COVID-19) pandemic. The rapid rise of COVID-19 has seen an unprecedented global response by Governments, regulators and industry sectors. This has included an increased level of restrictions on corporate Australia's ability to operate, significant volatility and instability in financial markets, and the release of a number of Government stimulus packages to support individuals and businesses as the Australian and global economies face significant slowdowns and uncertainties.

The Credit Union received a number of COVID-19-related hardship applications from customers regarding their loan facilities during the 2020 financial year, which has been taken into account in the expected credit loss provision as at 30 June 2020.

ENVIRONMENTAL ISSUES

The Credit Union's operations are not regulated by any significant environmental regulation under a law of the Commonwealth or State.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

There were no significant changes in the state of affairs of the Credit Union during the financial year.

DIVIDENDS

The Credit Union does not have permanent share capital and has therefore not paid or declared any dividends for the financial year.

EVENTS AFTER THE REPORTING PERIOD

Other than the ongoing impact of the COVID-19 pandemic, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors, to affect significantly the operations of the Credit Union, the results of those operations, or the state of affairs of the Credit Union in subsequent financial years.

FUTURE DEVELOPMENTS, PROSPECTS AND BUSINESS STRATEGIES

Other than the ongoing impact of the COVID-19 pandemic, during the next financial year the Directors do not expect any significant changes in the operations or services of the Credit Union which will affect the results of the Credit Union.

Further information as to future developments, prospects and business strategies of the Credit Union have not been included in this report as the Directors believe, on reasonable grounds, that to include such information would be likely to result in unreasonable prejudice to the interests of the Credit Union.

DIRECTORS' BENEFITS

Since the end of the previous financial year, no Director has received or become entitled to receive a benefit (other than a benefit included in the aggregate amount of emoluments) by reason of a contract made by the Credit Union or a related corporation with a Director or with a firm of which he or she is a member, or with an entity in which he or she has a substantial financial interest.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**DIRECTORS' REPORT
(Continued)**

INDEMNIFYING OFFICERS AND AUDITOR

The Credit Union has a Directors' and Officers' liability insurance policy covering all Directors. The premium paid in respect of this policy in force at the date of this report was \$10,928.

No indemnities have been given or agreed to be given or insurance premiums paid or agreed to be paid, during or since the end of the financial year, for the auditor of the Credit Union.

INFORMATION ON DIRECTORS

The Directors in office at the date of this report are:

Mr P M Nolan

Experience:

Interest in Shares:

- Chairman since 29/11/17
- Board Member since 1/11/03
- One ordinary share in the Credit Union

Mrs A Field

Experience:

Interest in Shares:

- Director
- Board Member since 25/01/17

PROCEEDINGS ON BEHALF OF CREDIT UNION

No person has applied for leave of Court to bring proceedings on behalf of the Credit Union or intervene in any proceedings to which the Credit Union is a party for the purpose of taking responsibility on behalf of the Credit Union for all or any part of those proceedings.

The Credit Union was not a party to any such proceedings during the year.

MACQUARIE CREDIT UNION LIMITED

DIRECTORS' REPORT
(Continued)

AUDITOR'S INDEPENDENCE DECLARATION

The lead auditor's independence declaration for the year ended 30 June 2020 has been received and can be found on page 6 of the financial statements.

NON-AUDIT SERVICES

The Board of Directors, in accordance with advice from the audit and risk committee, is satisfied that the provision of non-audit services during the year is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The directors are satisfied that the services disclosed below did not compromise the external auditor's independence for the following reasons:

- all non-audit services are reviewed and approved by the audit committee prior to commencement to ensure they do not adversely affect the integrity and objectivity of the audit; and
- the nature of the services provided do not compromise the general principles relating to auditor independence in accordance with APES 110: Code of Ethics for Professional Accountants set by the Accounting Professional and Ethics Standards Board.

The fees for non-audit services that were paid/payable to the external auditors during the year ended 30 June 2020 is disclosed in Note 6 of the financial statements.

ROUNDING

The financial report is presented in Australian Dollars. The Credit Union is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and in accordance with that Instrument, amounts in the financial report and Directors' report have been rounded off to the nearest thousand dollars, unless otherwise stated.

PRUDENTIAL STANDARD APS 330 – PUBLIC DISCLOSURES

As required by the Prudential Standards, the Credit Union's public disclosures of prudential information are located at www.macquariecu.com.au/aboutus/aps330 Prudential Disclosures.

Signed in accordance with a resolution of the Board of Directors at Dubbo on 30 September 2020 for and on behalf of the Directors by:

Auditor Independence Declaration Under S307C of the *Corporations Act 2001* to the Directors of Macquarie Credit Union Limited

I declare that, to the best of my knowledge and belief, in relation to the audit for the financial year ended 30 June 2020 there have been no contraventions of:

- 1) The auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- 2) Any applicable code of professional conduct in relation to the audit.

**CROWE AUDIT AUSTRALIA**

BRADLEY D BOHUN
Partner

DIRECTORS' DECLARATION

The Directors of Macquarie Credit Union Limited declare that:

1. The financial statements and notes set out on pages 8 to 79 are in accordance with the *Corporations Act 2001*; and
 - i) comply with Accounting Standards and the *Corporations Regulations 2001*; and
 - ii) give a true and fair view of the financial position as at 30 June 2020 and of the performance for the year ended on that date of the Credit Union.
2. In the Directors' opinion there are reasonable grounds to believe that the Credit Union will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors and is signed at Dubbo on 30 September 2020 for and on behalf of the Directors by:

Paul Nolan

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*.

The financial statements are for Macquarie Credit Union Limited ('the Credit Union') as an individual entity. Macquarie Credit Union Limited is a financial institution, incorporated and domiciled in Australia. The Credit Union is a for-profit company for accounting purposes.

The financial statements of Macquarie Credit Union Limited comply with all Australian equivalents to International Financial Reporting Standards (AIFRS) in their entirety. The financial statements are presented in Australian Dollars. Unless otherwise indicated, amounts in the financial statements have been rounded off to the nearest thousand dollars.

The financial statements were authorised for issue on 30 September 2020 in accordance with a resolution of the Board of Directors.

The following is a summary of the material accounting policies adopted by the Credit Union in the preparation of the financial statements. The accounting policies have been consistently applied unless otherwise stated.

1.1 Basis of Preparation

The financial statements have been prepared on an accruals basis and are based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

Going concern

The impact of the Coronavirus (COVID-19) pandemic and its impact on the Credit Union's operations has been subject to close consideration in preparing these financial statements. There has been a significant amount of scenario testing and forecasting undertaken to provide comfort that there is no material uncertainty in terms of the Credit Union as a 'going concern'. The scenario testing undertaken indicates that key metrics such as Capital Adequacy and Liquidity are able to be maintained at levels above both statutory requirements and internal benchmarks for the forecasting period.

1.2 Income Tax

The charge for current income tax expense is based on the profit for the year adjusted for any non-assessable or disallowed items. It is calculated using tax rates that have been enacted or are substantively enacted by the reporting date.

Deferred tax is accounted for using the statement of financial position liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss. Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the statement of profit or loss and other comprehensive income except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

1.2 Income Tax (continued)

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the Credit Union will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

1.3 Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Plant and Equipment

Plant and equipment are stated at cost less accumulated depreciation and impairment. Cost includes expenditure that is directly attributable to the acquisition of the item.

Depreciation

The depreciable amount of all fixed assets is depreciated on a straight line basis over their useful lives to the Credit Union commencing from the time the asset is held ready for use. The depreciation rates used for each class of depreciable assets are:

Class of fixed asset	Depreciation rate
Office equipment	10% - 50%
EDP equipment	33.3%
Office furniture and fittings	33.3%
Motor vehicles	22%

Assets with a cost less than \$1,000 are not capitalised.

1.4 Intangible Assets

Items of computer software which are not integral to the computer hardware owned by the Credit Union are classified as intangible assets, not as part of property, plant and equipment. Computer software is amortised over the expected useful life of the software at 33.3% per year.

Amortisation has been included within depreciation, amortisation and impairment of non-financial assets.

Subsequent expenditures on the maintenance of computer software and brand names are expensed as incurred.

When an intangible asset is disposed of, the gain or loss on disposal is determined as the difference between the proceeds and the carrying amount of the asset, and is recognised in profit or loss within other income or other expenses.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.5 Loans to Members

(i) Basis of Inclusion

All loans are initially recognised at fair value, net of transaction costs incurred and inclusive of loan origination fees. Loans are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the statement of profit or loss and other comprehensive income over the period of the loans using the effective interest method.

Loans to members are reported at their recoverable amount representing the aggregate amount of principal and unpaid interest owing to the Credit Union at reporting date, less any allowance or provision against debts considered doubtful. A loan is classified as impaired where the recovery of the debt is considered unlikely as determined by the Board of Directors.

(ii) Interest Earned

Term Loans - The loan interest is calculated on the basis of the daily balance outstanding and is charged in arrears to a member's account on the last day of each month.

Overdraft – The loan interest is calculated initially on the basis of the daily balance outstanding and is charged in arrears to a member's account on the last day of the month.

Non-Accrual Loan Interest – while still legally recoverable, interest is not brought to account as income where the Credit Union is informed that the member has deceased, or, where a loan is impaired. A loan is classified as impaired where recovery of the debt is considered unlikely as determined by the Board of Directors. Australian Prudential Regulation Authority (APRA) has made it mandatory that interest is not recognised as revenue after the irregularity exceeds 90 days for a loan facility, or 90 days for an over limit overdraft facility.

(iii) Loan Origination Fees and Discounts

Loan establishment fees and discounts are initially deferred as part of the loan balance, and are brought to account as income over the expected life of the loan. The amounts brought to account are included as part of interest revenue.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.6 Loan Impairment

AASB 9's impairment requirements use more forward looking information to recognise expected credit losses - the 'expected credit loss model' (ECL). Instruments within the scope of the new requirements include loans and advances and other debt-type financial assets measured at amortised cost and fair value through other comprehensive income (FVOCI), trade receivables and loan commitments and some financial guarantee contracts (for the issuer) that are not measured at fair value through profit or loss.

The Credit Union considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

- financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk (performing loans) ('Stage 1'); and
- financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low (underperforming loans) ('Stage 2').
- 'Stage 3' would cover financial assets that have objective evidence of impairment (loans in default/non-performing) at the reporting date.

Measurement of ECL

'12-month expected credit losses' are recognised for the first category while 'lifetime expected credit losses' are recognised for the second category. Measurement of the expected credit losses is determined by a probability weighted estimate of credit losses over the expected life of the financial instrument. They are measured as follows:

- financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Credit Union in accordance with the contract and the cash flows that the Credit Union expects to receive);
- financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows;
- undrawn loan commitments: as the present value of the difference between the contractual cash flows that are due to the Credit Union if the commitment is drawn down and the cash flows that the Credit Union expects to receive; and
- financial guarantee contracts: the expected payments to reimburse the holder less any amounts that the Credit Union expects to recover.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.6 Loan Impairment (Continued)

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognised and ECL are measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

Credit-impaired financial assets

At each reporting date, the Credit Union assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan or advance by the Credit Union on terms that the Credit Union would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a retail loan that is overdue for 90 days or more is considered impaired.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.6 Loan Impairment (Continued)

Presentation of allowance for ECL in the statement of financial position

Loss allowances for ECL are presented in the statement of financial position as follows:

- financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets;
- loan commitments and financial guarantee contracts: generally, as a provision; and
- where a financial instrument includes both a drawn and an undrawn component, and the Credit Union cannot identify the ECL on the loan commitment component separately from those on the drawn component: The Credit Union presents a combined loss allowance for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision.

Write-off

Loans and debt securities are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Credit Union determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Credit Union's procedures for recovery of amounts due.

1.7 Bad Debts Written Off

Bad debts are written off from time to time as determined by management and the Board of Directors when it is reasonable to expect that the recovery of the debt is unlikely. Bad debts are written off against the provision for doubtful debts if a provision for impairment had previously been recognised. If no provision had been recognised, the write offs are recognised as expenses in the statement of profit or loss and other comprehensive income.

1.8 Other Investments

The Credit Union's equity investments in other investments are held at fair value. The Credit Union has elected for these to be held at fair value through other comprehensive income (FVOCI).

Subsequent movements in fair value are recognised in other comprehensive income and never reclassified to profit or loss. Dividends from these investments continue to be recorded as other income within the profit or loss, unless the dividend clearly represents return of capital.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.9 Members' Deposits

(i) Basis for Measurement

Member savings and term investments are quoted at the aggregate amount of money owing to depositors.

(ii) Interest Payable

Interest on savings is calculated on the daily balance and posted to the accounts periodically, or on maturity of the term deposit. Interest on savings is brought to account on an accrual basis in accordance with the interest rate terms and conditions of each savings and term deposit account as varied from time to time. The amount of the accrual is shown as part of amounts payable.

1.10 Provision for Employee Benefits

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave when it is probable that settlement will be required and they are capable of being measured reliably.

Provisions made in respect of employee benefits expected to be settled within twelve months, are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

Provisions made in respect of employee benefits which are not expected to be settled within twelve months are measured at the present value of the estimated future cash outflows to be made by the Credit Union in respect of services provided by employees up to the reporting date.

The provision for annual leave was reviewed with entitlements not expected to be used within twelve months being measured at the present value of the estimated future cash outflows.

Contributions are made by the Credit Union to an employee's superannuation fund and are charged as expenses when incurred. The Credit Union has no legal obligation to cover any shortfall in the fund's obligation to provide benefits to employees on retirement.

1.11 Cash and Cash Equivalents

Cash and cash equivalents comprise cash balances, deposits at call and other short-term deposits with Approved Deposit-taking Institutions that can be readily converted into cash. This includes term deposits, negotiable certificates of deposit and floating rate note securities.

Negotiable certificates of deposit and floating rate note securities are held via the Austraclear system with the Reserve Bank of Australia, to enable conversion to cash. Cash and cash equivalents are recognised at the gross value of the outstanding balance.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.12 Impairment of Non-Financial Assets

At each reporting date the Credit Union assesses whether there is any indication that individual non-financial assets are impaired. Where impairment indicators exist, recoverable amount is determined, and impairment losses are recognised in profit or loss where the asset's carrying value exceeds its recoverable amount.

1.13 Provisions

Provisions are recognised when the Credit Union has a present obligation, the future sacrifice of economic benefits is probable, and the amount of the provision can be measured reliably.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

1.14 Leases

Policy applicable after 1 July 2019

Credit Union as a lessee

At inception of a contract, the Credit Union assesses whether a lease exists – i.e. whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Credit Union has elected to separate non-lease components from lease components and has accounted for payments separately, rather than as a single component.

At the lease commencement, the Credit Union recognises a right-of-use asset and associated lease liability for the lease term. The lease term includes extension periods where the Credit Union believes it is reasonably certain that the option will be exercised.

The right-of-use asset using the cost model where cost on initial recognition comprises: the lease liability, initial direct costs, prepaid lease payments, estimated cost of removal and restoration, less any lease incentives. The right-of-use is depreciated over the lease term on a straight-line basis and assessed for impairment in accordance with the impairment of asset accounting policy.

The lease liability is initially recognised at the present value of the remaining lease payments at the commencement of the lease. The discount rate is the rate implicit in the lease, however where this cannot be readily determined then the Credit Union's incremental borrowing rate is used. Typically the Credit Union uses its incremental borrowing rate as the discount rate.

Subsequent to initial recognition, the lease liability is measured at amortised cost using the effective interest rate method. The lease liability is re-measured whether there is a lease modification, or change in estimate of the lease term or index upon which the lease payments are based (e.g. CPI).

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.14 Leases (Continued)

Where the lease liability is re-measured, the right-of-use asset is adjusted to reflect the re-measurement.

The Credit Union has elected to apply the exceptions to lease accounting for both short-term leases (i.e. leases with a term of less than or equal to 12 months) and leases of low-value assets (defined by the Credit Union as \$10,000). The Credit Union recognises the payments associated with these leases as an expense on a straight-line basis over the lease term.

Intangible assets such as software licences continue to be accounted for under AASB 138 *Intangible Assets*, regardless of whether the arrangement would otherwise meet the AASB 16 *Leases* definition.

Credit Union as a lessor

The lease is classified as either an operating or finance lease at inception date, based on whether substantially all of the risks and rewards incidental to ownership of the asset have been transferred to the lessee. If the risks and rewards have been transferred then the lease is classified as a finance lease, otherwise it is an operating lease.

When the Credit Union has a sub-lease over an asset and is the intermediate lessor then the head lease and sub-lease are accounted for separately. The classification of the sub-lease is based on the right-of-use asset which arises from the head lease rather than the useful life of the underlying asset.

If the lease contains lease and non-lease components then the non-lease components are accounted for in accordance with AASB 15 Revenue from Contracts with Customers. The lease income is recognised on a straight-line basis over the lease term.

Policy applicable before 1 July 2019

Leases of property, plant and equipment, where substantially all the risks and benefits incidental to the ownership of the asset but not the legal ownership are transferred to the Credit Union, are classified as finance leases.

Finance leases are capitalised, recording an asset and a liability equal to the present value of the minimum lease payments, including any guaranteed residual values.

Leased assets are depreciated on a straight line basis over their estimated useful lives where it is likely the Credit Union will obtain ownership of the asset. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are recognised as expenses on a straight line basis over the lease term.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.15 Fair Value of Assets and Liabilities

The Credit Union measures some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable Accounting Standard.

Fair value is the price the Credit Union would receive to sell an asset or would have to pay to transfer a liability in an orderly transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair value of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from the principal market for the asset or liability (that is, the market with the greatest volume and level of activity for the asset or liability). In the absence of such a market, information is extracted from the most advantageous market available to the Credit Union at reporting date (that is, the market that maximises the receipts from the sale of the asset or minimises the payment made to transfer the liability, after taking into account transaction costs and transport costs).

For non financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

The fair value of liabilities may be valued, where there is no observable market price in relation to the transfer of an identical or similar financial instrument, by reference to observable market information where identical or similar assets are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, are detailed in the respective notes to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.16 Financial Instruments

Classification and measurement of financial liabilities

The Credit Union's financial liabilities include borrowings, members deposits and other payables.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Credit Union's designated a financial liability at fair value through profit or loss.

Subsequently, financial liabilities are measured at amortised cost using the effective interest method except financial liabilities designated at fair through profit or loss (FVPL), which are carried subsequently at fair value with gains or losses recognised in profit or loss.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within interest expense, or non-interest expenses.

Classification of financial assets

Except for those trade receivables that do not contain a significant financing component and are measured at the transaction price, all financial assets are initially measured at fair value adjusted for transaction costs (where applicable).

For the purpose of subsequent measurement, financial assets other than those designated and effective as hedging instruments are classified into the following categories upon initial recognition:

- amortised cost
- fair value through profit or loss (FVPL)
- fair value through other comprehensive income (FVOCI)

All income and expenses relating to financial assets that are recognised in profit or loss are presented within net interest income, fees commissions and other income or non-interest expenses.

Classifications are determined by both:

- the Credit Union's business model for managing the financial asset and
- the contractual cash flow characteristics of the financial assets.

Subsequent measurement of financial assets

Financial assets at amortised costs

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.16 Financial Instruments (Continued)

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial.

Financial assets at Fair Value through Profit or Loss (FVPL)

Financial assets that are within a different business model other than 'hold to collect' or 'hold to collect and sell' are categorised as fair value through profit or loss. Further, irrespective of business model financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVPL. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply.

Fair Value through Other Comprehensive Income (FVOCI)

Investments in equity instruments that are not held for trading are eligible for an irrevocable election at inception to be measured at FVOCI. Subsequent movements in fair value are recognised in other comprehensive income and are never reclassified to profit or loss. Dividends from these investments continue to be recorded as other income within the profit or loss unless the dividend clearly represents return of capital.

1.17 Goods and Services Tax

Revenues, expenses and assets are recognised net of the goods and services tax (GST), except where the amount of the GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances, the GST is recognised as part of the cost of accounting of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the Statement of Financial Position.

Cashflows are included on the Statement of Cashflows on a gross basis. The GST components of cashflows from investing and financing activities that are recoverable from, or payable to, the ATO are classified as operating cash flows.

As a financial institution, the Credit Union is input taxed on all income except for income from commissions and some fees. An input taxed supply is not subject to GST collection, and similarly the GST paid on related or apportioned purchases cannot be recovered. As some income is charged GST, the GST on purchases is generally recovered on a proportionate basis, using the safe harbour apportionment rate of 18% adopted per Practical Compliance Guide 2018/15 from 1 July 2019. In addition, certain prescribed purchases are subject to reduced input tax credits (RITC), of which 75% of the GST paid is recoverable.

ABN 85 087 650 253

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1.18 Revenue recognition

Interest revenue

Interest income arising from financial assets held at amortised cost is recognised using the effective interest rate method. Fees and transaction costs that are integral to the lending arrangement are recognised in the profit and loss over the expected life of the instrument in accordance with the effective interest rate method.

The calculation of effective interest rate does not include expected credit loss. Interest income that is classified as impaired is recognised by applying the effective interest rate to the amortised cost carrying value, being the gross carrying amount after deducting the impairment loss.

Fee income

Loan, account and transaction fee income relate to fees that are not deemed to be an integral part of the effective interest rate.

Fee income relating to deposit or loan accounts is either:

- Transaction based and therefore recognised when the performance obligation related to the transaction is fulfilled, or
- Related to performance obligations carried out over a period of time, therefore recognised on a systemic basis over the life of the agreement as the services are provided.

Transaction fees and provision of services are defined within product terms and conditions.

Insurance commission

Upfront commission – revenue in the form of a commission generated on successful placement of an insurance application is recognised at a point in time on inception of the policy.

Renewal commission – Commission income for renewals is recognised on receipt as there is insufficient detail readily available to estimate the most likely amount of income without a high probability of a significant reversal in a subsequent period. The receipt of renewal commission income is outside the control of the Credit Union, and is a key judgement area.

Dividend income

Dividend income is recognised when the right to receive income is established.

Rental income

Rental income from leases is recognised on a straight-line basis over the term of the lease.

Government grants

Government grants are recognised by the Credit Union where there is reasonable assurance that:

- a. the Credit Union will comply with the conditions attaching to them; and
- b. the grants will be received.

The Credit Union presents Government grants received in the profit or loss, within 'other income'.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

1.19 Comparative Amounts

When the presentation or classification of items in the financial statements is amended, comparative amounts shall be reclassified unless the reclassification is impracticable.

1.20 Accounting estimates and judgements

Management has been involved in the development, selection and disclosure of the Credit Union's critical accounting policies and estimates and the application of these policies and estimates. In particular, information about areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are described in the following notes:

- Note 1.6 and Note 9- Impairment of loans and advances with regards to the expected credit loss modelling and judgements, including:
 - Determining criteria for significant increase in credit risk: An asset moves to Stage 2 when its credit risk has increased significantly since initial recognition. In assessing whether the credit risk of an asset has significantly increased the Credit Union takes into account qualitative and quantitative reasonable and supportable forward-looking information;
 - Choosing appropriate models and assumptions for the measurement of expected credit loss; and
 - Establishing groups of similar financial assets for the purposes of measuring expected credit loss: When expected credit loss is measured on a collective basis, the financial instruments are grouped on the basis of shared risk characteristics.
- Note 1.8 and Note 10 - Fair value assumptions used for other financial assets;
- Note 1.14 and Note 20 - Estimation of the lease term and determination of the appropriate rate to discount the lease payments.

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on the Credit Union based on known information. The consideration extends to the nature of the products and service offered, customers, staffing and geographic regions in which the Credit Union operates. The key estimates and judgements associated with COVID-19 are detailed in Note 9.4 (regarding expected credit loss on loans to members).

1.21 Prior year adjustment

During the 2020 financial year, the Credit Union recognised a prior period adjustment to reduce the deferred tax asset balance by \$156,000.

The Credit Union has assessed that this adjustment is not material quantitatively or qualitatively to the user of the financial statements and, as such, have not restated the prior year comparatives for these adjustments in accordance with AASB 108 *Accounting Policies, Changes in Accounting Estimates and Errors*.

9.4 Amount arising from Expected Credit Loss (Continued)

Measurement of Expected Credit Loss (ECL)

The key inputs into the measurement of ECL include the following variables:

- probability of default (PD);
- loss given default (LGD); and
- exposure at default (EAD).

Category	Stages	Company definition of category	Basis for recognition of expected credit loss provision
Performing	Stage 1	Customers have a low risk of default and a strong capacity to meet contractual cash flows.	12 month expected losses. Where the expected lifetime of an asset is less than 12 months, expected are measured as its expected lifetime.
Underperforming	Stage 2	Loans for which there is a significant increase in credit risk; a significant increase in credit risk is presumed if interest and or/ principal repayments are 30 days past due.	Lifetime expected losses.
Non-performing	Stage 3	Interest and/or principal repayments are 90 days past due.	Lifetime expected losses.
Write-off		Interest and/or principal repayments are 180 days past due and there is no reasonable expectation of recovery.	Asset is written off.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

9. LOANS AND ADVANCES (Continued)

9.4 Amount arising from Expected Credit Loss (Continued)

These parameters are generally derived from internal analysis, management judgements and other historical data. They are adjusted to reflect forward-looking information as described below.

Probability of default estimates are calculated based on arrears over 90 days and other loans and facilities where the likelihood of future payments is low. The definition of default is consistent with the definition of default used for internal credit risk management and regulatory reporting purposes. Instruments which are 90 days past due are generally considered to be in default.

Loss given default is the magnitude of the likely loss if there is a default. The Credit Union estimates loss given default parameters based on the history of recovery rates of claims against defaulted counterparties. The loss given default percentage applied considers the structure of the loan, collateral, seniority of the claim, counterparty industry and recovery costs of any collateral that is integral to the financial asset. For loans secured by retail property, Loan to Value Ratios are a key parameter in determining loss given default. Loss given default estimates are recalibrated for different economic scenarios and, for real estate lending, to reflect possible changes in property prices.

Exposure at default represents the expected exposure in the event of a default. The Credit Union derives the exposure at default from the current exposure to the counterparty and potential changes to the current amount allowed under the contract including amortisation. The exposure at default of a financial asset is its gross carrying amount. For lending commitments and financial guarantees, the exposure at default includes the amount drawn, as well as potential future amounts that may be drawn under the contract, which are estimated based on historical observations and future expectations.

The Credit Union has elected to use the following segments when assessing credit risk for Stages 1 and 2 of the impairment model:

- Mortgage loans
- Personal loans
- Other – overdrafts.

Stage 3 of the impairment model will be assessed on an individual basis based on the provisioning requirement in APS220.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

9. LOANS AND ADVANCES (Continued)**9.4 Amount arising from Expected Credit Loss (Continued)***Significant increase in credit risk*

The Credit Union is not required to develop an extensive list of factors in defining a 'significant increase in credit risk'. In assessing significant increases in credit risk where a loan or group of loans must move to Stage 2 the following factors have been considered in the Credit Union's current model:

- Loans more than 30 days past due
- Loans with approved hardship or modified terms

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Credit Union considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Credit Union's historical experience and expert judgement, relevant external factors and including forward-looking information.

The Credit Union presumes that the credit risk on a financial asset has increased significantly since initial recognition when the exposure is more than 30 days past due unless the Credit Union has reasonable and supportable information that demonstrates otherwise.

Sensitivity analysis and forward-looking information

The uncertainty in the current environment due to the COVID-19 pandemic introduced significant estimation uncertainty in relation to the measurement of the Credit Union's allowance for expected credit losses which could result in an understatement or overstatement due to the following factors:

- The extent and duration of measures to stop or reduce the speed and spread of the COVID-19 virus;
- The extent and duration of the economic downturn, along with the time required for economic activity to recover; and
- The effectiveness and extent of continued Government stimulus measures, in particular their impact on the magnitude of economic downturn and the extent and duration of the recovery.

The Credit Union has prepared a sensitivity analysis over the allowance for expected credit losses, taking into consideration the following individual scenarios across the Credit Union's loan portfolio. The scenarios, including the underlying indicators, have been developed using a combination of publicly available data, internal forecasts and third-party information to form the base case scenario.

Base Case – the scenario was prepared using reasonable and supportable information that is relevant and available without undue cost or effort at balance date. The Credit Union took into consideration COVID-19 hardship loans, loan-to-valuation ratio on security for loans in hardship, borrower's capacity to repay and expected default of borrowers, unemployment rates, and a continuation of Government policy of support to individuals (ie JobKeeper and JobSeeker).

Worse than Base Case – this scenario considered a deterioration of borrower's capacity to repay and expected default of borrowers, a future increase in unemployment rates, and a price shock to the property market compared to the base case.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

9. LOANS AND ADVANCES (Continued)

9.4 Amount arising from Expected Credit Loss (Continued)

Better than Base Case – this scenario considered an improvement in the borrower's capacity to repay and unexpected default of borrowers, a future decrease in unemployment rates, and an improvement to the property market compared to the base case.

The results of the sensitivity analysis performed, taking into consideration a probability-weighted average of each different scenario eventuating, showed that the effect was not material compared to the Credit Union's base case allowance for expected credit losses. The Credit Union has elected to use the base case to measure its expected credit loss allowance at 30 June 2020.

Given the economic uncertainties and the judgement applied to factors used in determining the expected default of borrowers in future period, expected credit losses reported by the Credit Union should be considered as a best estimate within a range of possibilities. The rapidly evolving consequences of COVID-19 and Government, business and consumer responses could result in adjustments to the allowance within the next financial year.

20. LEASES

The Credit Union has applied AASB 16 *Leases* using the modified retrospective (cumulative catch -up) method from 1 July 2019, and therefore the comparative information has not been restated and continues to be reported under AASB 117 *Leases* and related Interpretations.

(a) Credit Union as a lessee

Nature of the leasing activities

The Credit Union leases a building in Dubbo, which is used as a member service centre and head office. The Credit Union also sub-leases a component of this building – refer to Note 20(b).

Terms and conditions of leases

The lease had an initial lease term of 10 years, and has two 5 year extension options - as detailed in a below section. The lease contains an annual pricing mechanism, which is the higher of 3% and the CPI movement.

There are no leases not yet commenced to which the lessee is committed.

Right-of-use assets

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

20. LEASES (Continued)

(a) Credit Union as a lessee (continued)

Extension options

As noted above, the building lease contains two extension options (both five years) which allow the Credit Union to extend the lease term by beyond the non-cancellable period.

The Credit Union includes options in the leases to provide flexibility and certainty to the Credit Union operations and reduce costs of moving premises, and the extension options are at the Credit Union's discretion.

At commencement date and reporting date, the Credit Union has assessed that it is not reasonably certain that the extension options will be exercised. As such, there is \$3.1m of potential future lease payments not included in the lease liabilities.

Income statement

The amounts recognised in the Statement of Profit or Loss and Other Comprehensive Income relating to leases where the Credit Union is a lessee are shown below:

	2020 \$'000
Interest expense on lease liabilities	(74)
Income from sub-leasing right-of-use assets	62

Statement of cash flows

	2020 \$'000
Total cash outflow for leases (including interest)	(222)

Exemptions applied

The Credit Union has not been required to apply the exemptions relating to short-term leases and leases of low-value assets, as described at Note 1.14. As at 30 June 2020, the Credit Union is not committed to any short-term leases.

Key assumptions used in calculations

The calculation of the right-of-use assets and lease liabilities are dependent on the following critical accounting judgements:

- **Assessment of lease term** – as discussed above, this considers consideration of extension options on a lease by lease basis.
- **Determination of the appropriate rate to discount the lease payments** – The Credit Union has used its incremental borrowing rate, as the rate implicit in the leases is not known. The Credit Union's assessed incremental borrowing rate as at 1 July 2019 on adoption was 7.56%. This was determined based on consideration of reference rates for commercial lending, lease term and a lease specific adjustment considering the 'secured borrowing' element of the leases.

MACQUARIE CREDIT UNION LIMITED

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

20. LEASES (Continued)

(b) Credit Union as a lessor

OPERATING LEASES

Nature of the leasing activities

The Credit Union receives rental income from subletting a component of the leased building referred to above at Note 20(a). This sub-lease has been classified as an operating lease for financial reporting purposes.

Terms and conditions of leases

The sub-lease had an initial lease term of 8 years, with a 6 month termination clause at the option of the lessee. This termination clause was exercised by the lessee in March 2020, with an end date of September 2020. The sub-lease contained an annual pricing mechanism, which was the higher of 3% and the CPI movement.

During the 2020 financial year, the Credit Union provided a rental reduction for the months of April to June to the lessee as a result of the COVID-19 pandemic. This reduction was on a month to month basis, hence reduced rental was recorded in the month of providing the reduction.

Income statement

The amounts recognised in the Statement of Profit or Loss and Other Comprehensive Income relating to operating leases where the Credit Union is a lessor (i.e. sub lessors) are shown below:

	2020 \$'000	2019 \$'000
Lease/rental income from operating leases	62	66
Total lease/rental income	\$62	\$66

Maturity analysis of lease payments receivable showing the undiscounted lease payments to be received after reporting date for operating leases:

	2020 \$'000	2019 \$'000
< 1 year	17	68
1 - 2 years	-	17
Total undiscounted lease payments receivable	\$17	\$85

FINANCE LEASES

Nature of the leasing activities

The Credit Union is not the lessor in any arrangements assessed as a finance lease.

21. RESERVES

	2020 \$'000	2019 \$'000
Reserve for credit losses	\$575	\$572
This reserve records amounts previously set aside as a General provision on loans and advances and is maintained to comply with the Prudential Standards set down by APRA.		
Balance at the beginning of the year	572	552
Transfer to/from retained profits	3	20
Balance at end of year	\$575	\$572

22. RETAINED PROFITS

Retained profits at the beginning of the financial year	12,548	12,296
Prior year adjustment (refer to Note 1.21)	(156)	-
Net profit attributable to members	270	272
Transfer to/from reserves	(3)	(20)
Retained profits at the end of the financial year	\$12,659	\$12,548

The retained profits balance includes amounts allocated for the purpose of a shareholder share redemption balance per Compliance Note 2001.084. This balance represents the amount of redeemable preference shares redeemed by the Credit Union since 1 July 1999. The law requires that the redemption of the shares be made out of profits. Since the value of the shares has been paid to members in accordance with the terms and conditions of the share issue, the account represents the amount of profits appropriated to the account.

23. DIRECTORS AND KEY MANAGEMENT PERSONNEL DISCLOSURES

23.1 Names of Directors and other Key Management Personnel

During the course of the financial year the following were the key management persons of the Credit Union:

Directors

PM Nolan
A Field
RK Mills
J Moss
DAJ Rootes
CJ Shepherd
PA Woodward (Appointed 30/10/2019)
J Gray (Resigned 01/04/2020)

Executive

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

23. DIRECTORS AND KEY MANAGEMENT PERSONNEL DISCLOSURES (Continued)

23.2 Key Management Personnel Compensation (Continued)

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Credit Union, directly or indirectly, including any director (whether executive or otherwise) of the Credit Union. *Control* is the power to govern the financial and operating policies of the Credit Union so as to obtain benefits from its activities.

Key Management Persons (KMP) have been taken to comprise the Directors and the four members of the executive management team during the financial year (2019 – three), responsible for the day to day financial and operational management of the Credit Union.

The aggregate compensation of key management persons during the year comprising amounts paid or payable or provided for was as follows:

	2020 \$'000	2019 \$'000
Short-term employee benefits	417	421
Post-employment benefits	48	36
Long-term employee benefits	9	-
	<hr/> \$474	<hr/> \$457

Compensation includes all employee benefits (as defined in AASB 119 *Employee Benefits*). Employee benefits are all forms of consideration paid, payable or provided by the Credit Union, or on behalf of the Credit Union, in exchange for services rendered to the Credit Union.

Compensation includes:

- (i) short-term employee benefits, such as wages, salaries and social security contributions, paid annual leave and paid sick leave, profit-sharing and bonuses (if payable within twelve months of the end of the period) and non-monetary benefits (such as medical care, housing, cars and free or subsidised goods or services) for current employees;
- (ii) post-employment benefits such as pensions, other retirement benefits, post-employment life insurance and post-employment medical care;
- (iii) other long-term employee benefits, including long-service leave or sabbatical leave, jubilee or other long-service benefits, long-term disability benefits and, if they are not payable wholly within twelve months after the end of the period, profit-sharing, bonuses and deferred compensation;
- (iv) termination benefits; and
- (v) share-based payment.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

23. DIRECTORS AND KEY MANAGEMENT PERSONNEL DISCLOSURES (Continued)

23.3 Loans to Key Management Persons

Loans provided to key management persons are on conditions no more favourable than those extended to members. Security has been obtained for these loans in accordance with the Credit Union's lending policy.

There is no provision for impairment in relation to any loan extended to key management persons. No loan impairment expense in relation to these loans has been recognised during the year.

There are no benefits on concessional terms and conditions applicable to the close family members of the key management persons. There are no loans which are impaired in relation to the loan balances with close family relatives of directors and management.

	2020 \$'000	2019 \$'000
Aggregate value of loans and overdrafts to Directors and other Key Management Personnel at reporting date	<u>\$126</u>	<u>\$559</u>
Aggregate value of loans disbursed to Directors and Key Management Personnel during the year	<u>-</u>	<u>-</u>
Aggregate value of revolving credit facilities limits granted or increased to Directors and Key Management Personnel during the year	<u>--</u>	<u>-</u>
Interest earned on loans and revolving credit facilities to Directors and Key Management Personnel during the year	<u>\$11</u>	<u>\$23</u>

23.4 Savings of Key Management Personnel

Total value of term and savings deposits from Directors and Key Management Personnel at reporting date	<u>\$1,123</u>	<u>\$1,114</u>
Total interest paid on deposits to Directors and Key Management Personnel during the year	<u>\$15</u>	<u>\$18</u>

Directors and key management personnel have received interest on deposits with the Credit Union during the financial year. Interest has been paid on terms and conditions no more favourable to those available on similar transactions to members of the Credit Union.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

23. DIRECTORS AND KEY MANAGEMENT DISCLOSURES (Continued)

23.5 Other Transactions with Related Parties

Other transactions between related parties include deposits from Directors and their Directors related entities, which are received on the same terms and conditions as applicable to members.

There were no benefits paid or payable to the close family members of the key management personnel.

There are no service contracts to which key management personnel or their close family members are an interested party.

The Credit Union's policy for receiving deposits from other related parties and, in respect of other related party transactions, is that all transactions are approved and deposits accepted on the same terms and conditions which applied to members for each type of deposit.

24. CAPITAL AND CREDIT COMMITMENTS

24.1 Capital Commitments

At 30 June 2020 the Credit Union has no future capital commitments (2019: \$Nil).

24.2 Outstanding Loan Commitments

Loans approved by the Board but not funded as at 30 June 2020 amounted to \$690,000 (2019: \$1,930,000).

The withdrawal of these funds is at the discretion of the Board subject to available liquid funds. It is anticipated all of the commitment will be paid within 12 months.

24.3 Unfunded Loan Facilities

Loan facilities to members for overdrafts and VISA credit cards approved but unfunded at 30 June 2020 amounted to \$2,698,000 (2019: \$2,636,000). There are no restrictions to withdrawal of the funds provided normal payments are maintained.

24.4 Loan redraw facilities

Loan redraw facilities available to members at 30 June 2020 amounted to \$8,856,000 (2019: \$7,192,000).

24.5 Other

In the normal course of business the Credit Union enters into various types of contracts that give rise to contingent or future obligations. These contracts generally relate to the financing needs of the members. The Credit Union applies the same credit policies and assessment criteria in making commitments and conditional obligations for off-balance sheet risks as it does for on-balance sheet loan assets. The Credit Union holds collateral supporting these commitments where it is deemed necessary.

25. STANDBY BORROWING FACILITIES

The Credit Union has borrowing facilities with IOOF Investment Management Ltd ('IOOF') of:

	2020	2019
	\$'000	\$'000
Loan facility – The Cash Management Fund		
Gross	-*	5,000
Current borrowing	-	(3,000)
	<hr/>	<hr/>
Net available	-*	\$2,000
	<hr/>	<hr/>

* While the Credit Union still has a facility with IOOF, it has not been available to the Credit Union since the commencement of the COVID-19 pandemic in 2020.

CUSCAL Overdraft facility

Gross	800	800
Current borrowing	-	-
	<hr/>	<hr/>
Net available	\$800	\$800
	<hr/>	<hr/>

The borrowing facilities with CUSCAL are secured by a security deposit.

26. CONTINGENT LIABILITIES

Credit Union Financial Support System

The Credit Union is a participant in the Credit Union financial support scheme (CUFSS). The purpose of the CUFSS is to protect the interests of Credit Union members, increase stability in the industry and provide liquidity in excess of current borrowing limits in times of need.

An Industry Support Contract made in 1999 between CUSCAL Limited, Credit Union Financial Support System Limited and participating Credit Unions required the Credit Union to execute an equitable charge in favour of CUSCAL. The charge is a fixed and floating charge over the assets and undertakings of the Credit Union and secures any advances which may be made to the Credit Union under the scheme. The balance of the debt at 30 June 2020 was \$Nil (2019: \$Nil).

There are no other contingent liabilities at reporting date or the date of this report.

27. OUTSOURCING ARRANGEMENTS

The Credit Union has an arrangement with other organisations to facilitate the supply of services to members.

CUSCAL Limited

This entity supplies financial banking services to the Credit Union and is an approved Special Service Provider for the provision of financial intermediation services. The Credit Union has invested all of its high quality liquid assets and operating liquid assets with the entity to maximise return on funds and to comply with the Emergency Liquidity Support requirements under the Prudential Standards.

This entity also supplies the Credit Union rights to members' cheques and Visa cards in Australia and provides services in the form of settlement with bankers for members' cheques and Visa card transactions and the production of Visa cards for use by members.

30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

INTRODUCTION

The Credit Union has a risk management framework that is appropriate to its size, business mix, and complexity and views effective risk management as key to achieving and maintaining its operational and strategic objectives. The Credit Union has policies in place that identify, measure, evaluate, monitor, report, and control all internal and external sources of risk.

The Board is responsible for the overall management of risk. It approves the level of risk which the Credit Union is exposed to and the framework for reporting and mitigating those risks. Authority flows from the Board of Directors to the Audit Committee and Risk Committee which is integral to the management of risk.

All matters pertaining to risk are developed and maintained with direct alignment to the Risk Management Framework with consideration to the Three Lines of Defence. The diagram below gives an overview of the Credit Union's Lines of Defence Organisational Structure.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

1st Line of Defence

The first line-of-defence comprises the business management who assume ownership of risks. They are responsible for day-to-day risk management decision-making involving risk identification, assessment, mitigation, monitoring and management. The roles and responsibilities of risk owners are clearly defined and incorporated into performance reviews.

2nd Line of Defence

The second line-of-defence comprises the specialist risk management function(s) that are functionally independent from the first line-of-defence. The second line-of-defence supports the Board of Directors (the Board) and its committees by:

- (a) Developing risk management policies, systems and processes to facilitate a consistent approach to the identification, assessment and management of risks;
- (b) Providing specialist advice and training to the Board and first line-of-defence on risk related matters;
- (c) Objective review and challenge of the consistent and effective implementation of the Risk Management Framework, and the data and information captured as part of the Risk Management Framework which are used in the decision-making processes within the business, in particular the completeness and appropriateness of the risk identification and analysis, ongoing effectiveness of risk controls, and prioritisation and management of action plans; and
- (d) Oversight of the risk profile and its reporting and escalation to the Board.

3rd Line of Defence

The third line-of-defence comprises the independent assurance function, each of whom provides independent assurance to the Board and its committees that:

- (a) The Risk Management Framework is appropriate, consistently implemented and operating effectively. This includes an assessment of the overall framework and the effectiveness of risk management practices, including its influence on decision-making; and
- (b) The policies, procedures and systems are appropriately designed and consistently implemented to operate effectively.

The main elements of risk governance are as follows:

Board: This is the primary governing body. It approves the level of risk which the Credit Union is exposed to and the framework for reporting and mitigating those risks.

Audit Committee: Its key role in risk management is the assessment of the controls that are in place to mitigate risks. The Audit Committee considers and confirms that the significant risks and controls are to be assessed within the internal audit plans. The Audit Committee receives the internal audit reports on assessment and compliance with the controls, and provides feedback to the Board and Risk Committee.

The Audit Committee is responsible for overseeing and monitoring the Credit Union's compliance systems in place by which management discharges its legal obligations in respect of the Credit Union's business.

Risk Committee: The role of the Risk Committee is to oversee the adequacy of the Credit Union's risk management framework. This includes the formulation of the Credit Union's risk strategies, the formulation of policies pertaining to the risk strategies and the monitoring of adherence to those policies.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

FOR THE YEAR ENDED 30 JUNE 2020

(Continued)

30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Risk Management Committee: The Risk Management Committee is the key component of the Second Line of Defence and reports directly to the Risk Committee in relation to the Risk Management Framework and to the General Manager in relation to operation matters.

Supporting the Risk Committee the purpose is the review and challenge with respect to the organisation's risk and compliance functions. The Risk Management Committee will provide Independent oversight of the risk profile and Risk Management Framework, including:

- (a) effective challenge to activities and decisions that materially affect the Credit Union's risk profile;
- (b) assistance in developing and maintaining the Risk Management Framework; and
- (c) independent reporting lines to appropriately escalate issues.

The Risk Management Committee oversees the compliance function independently of business lines, report's findings to the Risk Committee and works with management to enhance compliance outcomes.

Remuneration Committee: Its key role is to ensure that the Credit Union's remuneration arrangements align with its circumstances and advance the Credit Union's mission of serving its members. The Remuneration Committee is to also ensure that the Credit Union's Remuneration Policy and practices appropriately aligns remuneration and risk management in compliance with CPS 510: Governance and PPG 511: Remuneration.

General Manager: This person has responsibility for both liaising with the operational function to ensure timely production of information for the Audit Committee and Risk Committee and ensuring that instructions passed down from the Board via the Audit Committee and Risk Committee are implemented.

Internal Audit: Internal audit has responsibility for implementing the controls testing and assessment as required by the Audit Committee.

Key risk management policies encompassed in the overall risk management framework include:

- Interest rate risk;
- Liquidity management;
- Credit risk management; and
- Operations risk management including data risk management.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

A. MARKET RISK AND HEDGING POLICY

The objective of the Credit Union's market risk management is to manage and control market risk exposures in order to optimise risk and return.

Market risk is the risk that changes in interest rates, foreign exchange rates or other prices and volatilities will have an adverse effect on the Credit Union's financial condition or results. The Credit Union is not exposed to currency risk, and other significant price risk. The Credit Union does not trade in the financial instruments it holds on its books. The Credit Union is exposed only to interest rate risk arising from changes in market interest rates.

Interest Rate Risk

Interest rate risk is the risk of variability of the fair value or future cash flows arising from financial instruments due to the changes in interest rates.

Most banks are exposed to interest rate risk within its Treasury operations. This Credit Union does not have a treasury operation and does not trade in financial instruments.

Interest Rate Risk in the Banking Book

The Credit Union is exposed to interest rate risk in its banking book due to mismatches between the repricing dates of assets and liabilities.

The interest rate risk on the banking book is measured monthly, and reported to the Board by the General Manager.

In the banking book the most common risk the Credit Union faces arises from fixed rate assets and liabilities. This exposes the Credit Union to risk of sensitivity should interest rates change.

The level of mismatch on the banking book is set out in Note 32 below. The table set out in Note 32 displays the period that each asset and liability will reprice as at reporting date. The risk is not considered significant to warrant the use of derivatives to mitigate this risk.

Method of Managing Risk

The Credit Union manages its interest rate risk by the use of interest rate sensitivity analysis, the detail and assumptions used are set out below.

Interest Rate Sensitivity

The Credit Union's exposure to market risk is measured and monitored using interest rate sensitivity models.

The policy of the Credit Union to manage the risk is to maintain a balanced 'on book' strategy by ensuring the net interest rate gaps between assets and liabilities are not excessive.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Interest Rate Sensitivity (Continued)

The gap is measured monthly to identify any large exposures to the interest rate movements and to rectify the excess through targeted fixed rate interest products available through investment assets, and term deposits to rectify the imbalance to within acceptable levels. The policy of the Credit Union is not to undertake derivatives to match the interest rate risks. The Credit Union's exposure to interest rate risk is set out in Note 31 which details the contractual interest change profile.

Based on calculations as at 30 June 2020, the net profit impact for a 1% movement in interest rates would be \$73,853 (2019 - \$103,000).

The Credit Union performs a sensitivity analysis to measure market risk exposures.

The method used in determining the sensitivity was to evaluate the profit based on the timing of the interest repricing on the banking book of the Credit Union for the next 12 months. In doing the calculation the assumptions applied were that:

- the interest rate change would be applied equally over to the loan products and term deposits;
- the rate change would be as at the beginning of the 12 month period and no other rate changes would be effective during the period;
- the term deposits would all reprice to the new interest rate at the term maturity, or be replaced by a deposit with similar terms and rates applicable;
- savings deposits would not reprice in the event of a rate change;
- mortgage loans and personal loans would all reprice to the new interest rate within 28 days;
- all loans would be repaid in accordance with the current average repayment rate (or contractual repayment terms);
- the value and mix of call savings to term deposits will be unchanged; and
- the value and mix of personal loans to mortgage loans will be unchanged.

There has been no change to the Credit Union's exposure to market risk or the way the Credit Union manages and measures market risk in the reporting period.

Price Risk – Equity Investments

The Credit Union is not exposed to material price risk on the value of shares.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)**B. LIQUIDITY RISK**

Liquidity risk is the risk that the Credit Union may encounter difficulties raising funds to meet commitments associated with financial instruments, eg. borrowing repayments or member withdrawal demands. It is the policy of the Board of Directors that treasury maintains adequate cash reserves and committed credit facilities so as to meet the member withdrawal demands when requested.

The Credit Union manages liquidity risk by:

- Continuously monitoring actual daily cash flows and longer term forecasted cash flows;
- Monitoring the maturity profiles of financial assets and liabilities;
- Maintaining adequate reserves, liquidity support facilities and reserve borrowing facilities; and
- Monitoring the prudential liquidity ratio daily.

The Credit Union has a longstanding arrangement with the industry liquidity support service, Credit Union Financial Support Services (CUFSS) which can access industry funds to provide support to the Credit Union should support be necessary at short notice.

The Credit Union is required to maintain at least 12% of total adjusted liabilities as liquid assets capable of being converted to cash within 24 hours under the APRA Prudential Standards. The Credit Union policy is to apply 14% of funds as liquid assets to maintain adequate funds for meeting member withdrawal requests. The ratio is checked daily. Should the liquidity ratio fall below this level, the management and Board are to address the matter and ensure that the liquid funds are obtained from new deposits, or borrowing facilities available. Note 24 describes the borrowing facilities as at reporting date. These facilities are in addition to the support from CUFSS.

The maturity profile of the financial liabilities, based on the contractual repayment terms are set out in Note 31. The ratio of liquid funds over the past year is set out below:

	2020	2019
	%	%
To total adjusted liabilities		
As at 30 June	17.39	15.23
Minimum during the year	14.14	13.28
To total member deposits		
As at 30 June	19.65	18.08

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

C. CREDIT RISK

Credit risk is the risk that members, financial institutions and other counterparties will be unable to meet their obligations to the Credit Union which may result in financial losses. Credit risk arises principally from the Credit Union's loan book and investment assets.

Credit Risk – Loans

Loans to	2020 Carrying Value \$'000	2020 Off Balance Sheet \$'000	2020 Max Exposure \$'000	2019 Carrying Value \$'000	2019 Off Balance Sheet \$'000	2019 Max Exposure \$'000
Residential & commercial	84,449	9,050	93,499	82,277	8,872	91,149
Personal	4,039	496	4,535	4,139	292	4,431
Overdraft/Visa credit cards	847	2,698	3,545	973	2,594	3,567
Total	\$89,335	\$12,244	\$101,579	\$87,389	\$11,758	\$99,147

Carrying value is the value on the statement of financial position. Maximum exposure is the value on the statement of financial position plus the undrawn facilities (Loans approved not advanced, redraw facilities, lines of credit facilities, overdraft facilities, credit card limits).

All loans and facilities are within Australia. Concentrations are described in Note 9.

The method of managing credit risk is by way of strict adherence to the credit assessment policies before the loan is approved and close monitoring of defaults in the repayment of loans thereafter on a weekly basis. The credit policy has been endorsed by the Board to ensure that loans are only made to members that are creditworthy (capable of meeting loan repayments).

The Credit Union has established policies over the:

- Credit assessment and approval of loans and facilities covering acceptable risk assessment and security requirements;
- Limits of acceptable exposure over the value to individual borrowers, non mortgage secured loans, commercial lending and concentrations to geographic and industry Credit Unions considered at high risk of default;
- Reassessing and review of the credit exposures on loans and facilities;
- Establishing appropriate provisions to recognise the impairment of loans and facilities;
- Debt recovery procedures;
- Review of compliance with the above policies.

A regular review of compliance is conducted as part of the internal audit scope.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Past due and impaired

A financial asset is past due when the counterparty has failed to make a payment when contractually due. As an example, a member enters into a lending agreement with the Credit Union that requires interest and a portion of the principal to be paid every month. On the first day of the month, if the agreed repayment amount has not been paid, the loan is past due.

Past due does not mean that a counterparty will never pay, but it can trigger various actions such as renegotiation, enforcement of covenants, or legal proceedings. Once the past due exceeds 90 days the loan is regarded as impaired, unless other factors indicate the impairment should be recognised sooner.

Daily reports monitor the loan repayments to detect delays in repayments and recovery action is undertaken after 7 days.

For loans where repayments are doubtful, external consultants are engaged to conduct recovery action once the loan is over 90 days in arrears. The exposures to losses arise predominately in the personal loans and facilities not secured by registered mortgages over real estate.

If such evidence exists, the estimated recoverable amount of that asset is determined and any impairment loss, based on the net present value of future anticipated cash flows, is recognised in the statement of profit or loss and other comprehensive income. In estimating these cash flows, management makes judgements about a counterparty's financial situation and the net realisable value of any underlying collateral.

In addition to specific provisions against individually significant assets, the Credit Union makes collective assessments for each financial asset portfolio segmented by similar risk characteristics.

Statement of financial position provisions are maintained at an 'expected credit loss' level that management deems sufficient to absorb probable incurred losses in the Credit Union's portfolio from homogenous portfolios of assets and individually identified loans.

The provision for impaired and past due exposures relate to the loans to members.

Past due value is the 'on balance sheet' loan balances which are past due by 90 days or more.

Details are as set out in Note 9.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Bad debts

Amounts are written off when collection of the loan or advance is considered to be remote. All write offs are on a case by case basis, taking account of the exposure at the date of the write off.

On secure loans, the write off takes place on ultimate realisation of collateral value, or from claims on any lenders mortgage insurance.

A reconciliation in the movement of both past due and impaired exposure provisions is provided in Note 9.

Collateral Securing Loans

A sizeable portfolio of the loan book is secured on residential property in Australia. Therefore, the Credit Union is exposed to risks in the reduction of the Loan to Value (LVR) cover should the property market be subject to a decline.

The risk of losses from the loans undertaken is primarily reduced by the nature and quality of the security taken.

The Board policy is to maintain at least 70% of the loans in well secured residential mortgages which carry an 80% loan to valuation ratio or less. Note 9 describes the nature and extent of the security held against the loans held as at reporting date.

Concentration risk – Individuals

Concentration risk is a measurement of the Credit Union's exposure to an individual counterparty (or Credit Union of related parties). If prudential limits are exceeded as a proportion of the Credit Union's Tier 1 capital (10%) a large exposure is considered to exist. No capital is required to be held against these but the APRA must be informed. APRA may impose additional capital requirements if it considers the aggregate exposure to all loans over the 10% capital benchmark, to be higher than acceptable.

The aggregate value of large exposure loans are set out in Note 9. (The Credit Union holds no significant concentrations of exposures to members). Concentration exposures to counterparties are closely monitored with annual reviews being prepared for all exposures over 5% of Tier 1 capital.

The Credit Union's policy on exposures of this size is to insist on an initial Loan to Valuation ratio (LVR) of at least 80% and bi-annual reviews of compliance with this policy are conducted.

Concentration risk – Industry

There is no concentration of credit risk with respect to loans and receivables as the Credit Union has a large number of customers dispersed in areas of employment.

The Credit Union has a concentration in the retail lending for members who comprise employees and family in the electricity industry and all levels of government. This concentration is considered acceptable on the basis that the Credit Union was formed to service these members, and the employment concentration is not exclusive. Should members leave the industry the loans continue and other employment opportunities are available to the members to facilitate the repayment of the loans. The details of the geographical concentrations are set out in Note 9.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Credit Risk – Liquid Investments

The Investment Policy of the Credit Union governs investments made by the Credit Union in Minimum Liquidity Holding assets (“MLH”, as defined by APRA in APS 210: Liquidity), and “non-MLH” assets which constitute loans and advances made to other Authorised Deposit Taking Institutions (“ADIs”) that are classified as MLH assets due to the rating of the institution, the type of product, or the structure of the product falling outside the definition of MLH.

Each MLH investment must be made with an APRA regulated ADI in accordance with the following MLH limits and Tier 1 Capital limits. The Tier 1 Capital is reported in the Credit Union’s APS 330 return for the previous quarter as follows:

	Credit Limit (% of total MLH)	Institution Limit (% of Tier 1 Capital)
CUSCAL and Government	100%	200%
AA- Australian Major Bank	100%	50%
AA- and above (other)	50%	50%
A- to A+ ADIs	50%	50%
BBB- to BBB+ ADIs	25%	25%
Unrated ADIs	Nil	Nil

Each Non-MLH investment must be made with an Australian ADI in accordance with the following limits, with a maximum dollar value as follows:

	Institution Limit Max Institution Exposure (\$) or % of Tier 1 Capital	Non-MLH Portfolio Limit Max Exposure (\$) or (%)
Australian Credit Unions (Assets greater than \$100M)	\$2 million	\$10 million
Other Australian Credit Unions (Assets less than \$100M)	\$1 million	\$5 million
Other Unrated ADI’s	\$2 million	\$10 million
Cuscal and Government	200%	100%
AA- Australian Major Bank	50%	100%
AA- and above (other)	50%	50%
A- to A+ ADI’s	50%	50%
BBB- to BBB+ ADI’s	25%	50%

The risk exposure parameters of this mix ensure that there is no undue concentration of liquid asset holdings in any one form or with any one counter-party.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

Banks	14,112	-	-	13,598	-	-
Other ADI	4,000	-	-	1,000	-	-
Total	25,397	-	-	19,159	-	-

D. OPERATIONAL RISK

Operational risk is the risk of loss to the Credit Union resulting from deficiencies in process, personnel, technology, infrastructure, and from external factors other than credit, market and liquidity risks. Operational risks in the Credit Union relate mainly to those risks arising from a number of sources including legal compliance, business continuity, data infrastructure, outsourced services failures, fraud, and employee errors.

The Credit Union's objective is to manage operational risk so as to balance the avoidance of financial losses through the implementation of controls, whilst avoiding procedures which inhibit innovation and creativity. These risks are managed through the implementation of policies and systems to monitor the likelihood of the events and minimise the impact. Systems of internal control are enhanced through:

- the segregation of duties between employee duties and functions, including approval and processing duties;
- documentation of the policies and procedures, employee job descriptions and responsibilities, to reduce the incidence of error and inappropriate behaviour;
- implementation of the whistle blowing policies to promote a complaint cultures and awareness of the duty to report exceptions by staff;
- education of members to review their account statements and report exceptions to the Credit Union promptly;
- effective dispute resolution procedures to respond to member complaints;
- effective insurance arrangements to reduce the impact of losses; and
- contingency plans for dealing with the loss of functionality of systems or premises or staff.

Fraud

Fraud can arise from member card PINS, and internet passwords being compromised where not protected adequately by the member. It can also arise from other systems failures. The Credit Union has systems in place which are considered to be robust enough to prevent any material fraud. However, in common with all retail banks, fraud is potentially a real cost to the Credit Union.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

IT Systems

The worst case scenario would be the failure of the Credit Union's core banking system and IT network suppliers, to meet customer obligations and service requirements. The Credit Union has outsourced the IT systems management to an Independent Data Processing Centre (IDPC) which is owned by a collection of Credit Unions and Mutual Banks. This organisation has the experience in-house to manage any short-term problems and has a contingency plan to manage any related power or systems failures. Other network suppliers are engaged on behalf of the Credit Union by CUSCAL to service the settlements with other financial institutions for direct entry, ATM and Visa cards, and BPay etc.

A full disaster recovery plan is in place to cover medium to long-term problems which is considered to mitigate the risk to an extent such that there is no need for any further capital to be allocated.

E. CAPITAL MANAGEMENT

The capital levels are prescribed by Australian Prudential Regulation Authority (APRA). Under the APRA prudential standards capital is determined in three components:

- Credit risk;
- Market risk (trading book);
- Operations risk.

The market risk component is not required as the Credit Union is not engaged in a trading book for financial instruments.

Capital Resources

Tier 1 Capital

The vast majority of Tier 1 capital comprises:

- Retained earnings;
- Realised reserves;
- Regulatory adjustments (equity holding in Cuscal Ltd, net DTA/DTL position and intangible assets).

MACQUARIE CREDIT UNION LIMITED

30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Tier 2 Capital

Tier 2 capital consists of capital instruments that combine the features of debt and equity in that they are structured as debt instruments, but exhibit some of the loss absorption and funding flexibility features of equity. There are a number of criteria that capital instruments must meet for inclusion in Tier 2 capital resources as set down by APRA.

Tier 2 capital generally comprises:

- Available for sale reserves which arises from the revaluation of financial instruments categorised as available for sale and reflects the net gains in fair value of those assets in the year. This is included within upper Tier 2 capital.
- A subordinated loan, which is not applicable to the Credit Union.
- A general reserve for credit losses.

At balance date, the Credit Union's capital comprises:

	June 2020 \$'000	June 2019 \$'000
Tier 1 Capital		
Gross Tier 1 Capital	12,659	12,548
Deductions from Tier 1 Capital	(353)	(568)
Net Tier 1 Capital	12,306	11,980
Tier 2 Capital		
General reserve for credit losses	575	572
Net Tier 2 Capital	575	572
Capital Base	\$12,881	\$12,552

FOR THE YEAR ENDED 30 JUNE 2020
(Continued)****30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)**

At 30 June 2020, the Credit Union's risk weighted assets reported to APRA were as follows:

	June 2020 \$'000	June 2019 \$'000
Credit Risk		
Standardised Approach On and Off Balance Sheet	52,399	49,338
Operational Risk		
Standardised Approach	6,586	6,300
Total Risk Weighted Assets	58,985	\$55,638
Capital Adequacy Ratio	21.8%	22.6%

To manage the Credit Union's capital the Credit Union reviews the ratio monthly and monitors major movements in the asset levels. If the capital adequacy ratio declines by more than 0.5% for 3 consecutive quarters or reaches 17%, management advises the Board. Management's advice will show how growth, profit levels, mix of loan products and the acquisition of other assets has affected the capital adequacy ratio.

Pillar 2 Capital on Operational Risk

The Credit Union uses the Standardised approach which is considered to be the most suitable for its business given the small number of distinct transaction streams. The operational risk capital requirement is calculated by mapping the Credit Union's three year average net interest and net non-interest income to the Credit Union's various business lines.

Based on this approach, the Credit Union's operational risk requirement is \$6,586,002.

Internal Capital Adequacy Management

The Credit Union manages its internal capital levels for both current and future activities through the Audit Committee and Risk Committee. The output of the Audit Committee and Risk Committee is reviewed by the Board in its capacity as the primary governing body. The capital required for any change in the Credit Union's forecasts for asset growth, or unforeseen circumstances are assessed by the Board.

31. CORPORATE GOVERNANCE DISCLOSURES

Board

The Credit Union Board has responsibility for the overall management and strategic direction of the Credit Union.

Board members are independent of management and are either Board appointed or elected by members on a rotation of every 3 years. Currently there is one Board appointed Director. Each Director must be eligible to act under the constitution as a member of the Credit Union and *Corporations Act 2001* criteria. Directors need to also satisfy the fit and proper criteria as well as the newly implemented Banking Executive Accountability Regime (BEAR) set down by APRA.

The Board has established policies to govern conduct of the Board meetings, director conflicts of interest and training so as to maintain director awareness of emerging issues and to satisfy all governance requirements.

The Board is responsible for:

1. Sets the strategic direction of the Credit Union and monitors its implementation via the progress of the Strategic Plan;
2. Monitoring matters of operational risk management and APRA reporting obligations;
3. Monitoring compliance with applicable laws;
4. General Manager remuneration and benefits;
5. Staff remuneration policies;
6. Financial budgets and performance criteria;
7. Approval of large loans or commercial loans; and
8. The acknowledgement of management approved interest rate changes.

Board Remuneration

The Board receives remuneration from the Credit Union in the form of Director fees approved by members and reimbursement of out of pocket expenses. There are no other benefits received from the Credit Union by the Directors.

Audit Committee

An Audit Committee has been formed to assist the Board in relevant matters of financial prudence. The Committee is comprised of a number of directors and has senior management participation.

The Audit Committee oversees the financial reporting and audit process. Its role includes:

1. The oversight of all statutory reporting requirements;
2. Monitoring audit reports received from internal and external auditors and management's responses thereto;
3. Liaising with the auditors (internal and external) on the scope and results of their work;
4. Ensuring the external auditors remain independent in the areas of work conducted; and
5. The oversight of the Credit Union's compliance function.

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

31. CORPORATE GOVERNANCE DISCLOSURES (Continued)

Risk Committee

A Risk Committee has been formed to assist the Board in managing the risk framework of the Credit Union. The Committee is comprised of a number of directors and has senior management participation. Its role includes:

- The oversight of management's responsibilities to assess and manage the Credit Union's credit risk, market risk, liquidity risk, insurance risk, operational risk, capital risk and strategic and business risk; and
- Reviewing issues raised by the Internal and External Auditors that impact the Credit Union's risk management framework.

Compliance

The Credit Union's Compliance Function is an internal staffing resource which has been established to assist with the provision of structure, co-ordination of compliance functions and systems, and the performance of regular internal 'compliance checking' procedures.

The Credit Union's Compliance Function has the combined role of establishing, developing and increasing the culture of compliance within the Credit Union.

External Audit

Audit is performed by the Crowe Audit Australia. Through their prior history Crowe has been auditing credit unions and mutual banks for many years.

The work performed by the external auditors is examined by the Audit Committee to ensure that it is consistent with the current external audit reporting role and does not impair their independence.

Internal Audit

An internal audit function has been established using the services of DBP Consulting Pty Ltd (Glenn Pannam) to deal with the areas of internal control compliance and regulatory compliance.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

31. CORPORATE GOVERNANCE DISCLOSURES (Continued)

Regulation

The Credit Union is regulated by:

- Australian Prudential Regulation Authority (APRA) for the prudential risk management of the Credit Union.
- Australian Securities and Investments Commission (ASIC) for adherence to *Corporations Act 2001*, Accounting Standards disclosures in the financial statements and FSR requirements and for compliance with the National Consumer Credit Protection Act. The FSR legislation requires the Credit Union to disclose details of products and services, maintain training for all staff that deal with the members and provide an effective and independent complaints handling process. Under the FSR licensing arrangements all staff which deal with the public are required to be trained and certified to a level of skill commensurate with the services provided.

Both ASIC and APRA conduct periodic inspections and the auditors report to both regulators annually on compliance with respective requirements. The external auditors also report to both ASIC on the FSR compliance and APRA on the prudential policy compliance.

Work Health & Safety (WHS)

The nature of the finance industry is such that the risk of injury to staff and the public are less apparent than in other high risk industries. Nevertheless the Credit Union's two most valuable assets are staff and members and steps need to be taken to maintain their security and safety when circumstances warrant.

WHS policies have been established for the protection of both members and staff and are reviewed at least annually for relevance and effectiveness.

Staff are trained in robbery procedures and offices are designed to detract from such acts by:

- Little or no cash being held in accessible areas
- Cameras and monitoring equipment visible throughout the office

Office premises are examined regularly to ensure that the electrical safety and physical safety measures are appropriate to the needs to the public and staff. Independent security consultants report regularly on the areas of improvement which may be considered.

The Credit Union has established a WHS checklist that is completed quarterly by staff. Any concerns raised are actioned in a prompt manner. Secure cash handling policies are in place and injury from lifting heavy weights and RSI are managed by proper techniques to minimise the risk of damage.

All staff have access to trauma counsellors where required following an incident which may impair their feeling of safety in the work place.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

32. FINANCIAL INSTRUMENTS

32.1 Net Fair Values

Net fair value has been determined on the basis of the present value of expected future cash flows under the terms and conditions of each financial asset and financial liability.

Significant assumptions used in the determining the cash flows are that the cash flows will be consistent with the contracted cash flows under the respective contracts.

The information is only relevant to circumstances at reporting date and will vary depending on the contractual rates applied to each asset and liability, relative to market rates and conditions at the time. No assets held are regularly traded by the Credit Union, and there is no active market to assess the value of the financial assets and liabilities.

	Total carrying amount in the statement of financial position		Aggregate net fair value	
	2020 \$'000	2019 \$'000	2020 \$'000	2019 \$'000
Financial assets				
<i>Financial assets at amortised cost</i>				
Cash and liquid assets	25,552	19,296	25,552	19,296
Accrued receivables	205	231	205	231
Loans and advances	89,239	87,372	89,239	87,372
<i>Financial assets at fair value through other comprehensive income</i>				
Other investments	163	163	163	163
Total financial assets	115,159	107,062	115,159	107,062
Financial liabilities				
<i>Financial liabilities at amortised cost</i>				
Deposits	102,007	91,121	102,007	91,121
Payables and other liabilities	297	362	297	362
Interest bearing liabilities	-	3,000	-	3,000
Total financial liabilities	102,304	94,483	102,304	94,483

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

32. FINANCIAL INSTRUMENTS (Continued)

32.1 Net Fair Values (Continued)

The net fair value estimates were determined by the following methodologies and assumptions:

Cash and liquid assets

The carrying values of cash and liquid assets approximate their net fair value as they are short term in nature or are receivable on demand.

Accrued receivables

The carrying amounts approximate fair value because they are short term in nature.

Loan and other advances

The majority of the Credit Union's loans are variable rate loans. The carrying amount of these loans is considered to approximate fair value. The net fair values of any non-variable rate loans are estimated using discounted cash flow analysis, based on current incremental lending rates for similar types of lending arrangements. The net fair value of impaired loans was calculated by discounting expected cash flows using a rate which includes a premium for the uncertainty of the flows.

Other Investments

For investments where there is no quoted market price, a reasonable estimate of the fair value is determined by reference to the current market value of another instrument which is substantially the same or is calculated based on the expected cash flows or the underlying net asset base of the investment/security.

Other financial liabilities

This includes interest payable and unrealised expenses payable for which the carrying amount is considered to be a reasonable estimate of net fair value. For liabilities which are long term, net fair values have been estimated using the rates currently offered for similar liabilities with remaining maturities.

Receivables

The carrying amounts approximate fair value because they are short term in nature.

Payables and other liabilities

The carrying amounts approximate fair value as they are short term in nature.

Members deposits

This includes interest and unrealised expenses payable for which the carrying amount is considered to be reasonable estimate of net fair value. For liabilities, which are long term, net fair values have been estimated using the rates currently offered for similar liabilities with remaining maturities. The fair value of deposits at call is the amount payable on demand at the reporting date.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

32. FINANCIAL INSTRUMENTS (Continued)

32.2 Credit Risk Exposures

The Credit Union's maximum exposures to credit risk at reporting date in relation to each class of recognised financial asset is the carrying amount of those assets as indicated in the statement of financial position. The maximum credit risk exposure does not take into account the value of any collateral or other security held, in the event other entities/parties fail to perform their obligations under the financial instruments in question.

32.3 Concentrations of Credit Risk

The Credit Union minimises concentrations of credit risk in relation to loans receivable by undertaking transactions with a large number of members.

32.5 Maturity profile of financial instruments

Monetary liabilities have differing maturity profiles depending on the contractual term. The table below shows the period in which different financial instruments will mature and be eligible for renegotiation or withdrawal. In the case of loans, the table shows the period over which the principal outstanding and interest will be repaid based on the remaining period to the repayment date assuming contractual repayments are maintained, and is subject to change in the event that current repayment conditions are varied. Financial assets and liabilities are at the undiscounted values including future interest expected to be earned or paid. Accordingly these values will not agree to the statement of financial position.

Financial instruments	Within 3 months		3-12 months		1-5 Years		> 5 years		At Call		Total	
	2020 \$'000	2019 \$'000	2020 \$'000	2019 \$'000	2020 \$'000	2019 \$'000	2020 \$'000	2019 \$'000	2020 \$'000	2019 \$'000	2020 \$'000	2019 \$'000

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

33. FAIR VALUE MEASUREMENTS

The Credit Union measures and recognises the following assets and liabilities at fair value on a recurring basis after initial recognition:

- Other (equity) investments - Financial assets at fair value through other comprehensive income.

The Credit Union does not subsequently measure any liabilities at fair value on a recurring basis, or any assets or liabilities at fair value on a no-recurring basis.

a) Fair Value Hierarchy

AASB 13: Fair Value Measurement requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurements into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

b) Valuation techniques

The fair values of assets and liabilities that are not traded in an active market are determined by using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

The Credit Union selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Credit Union are consistent with one or more of the following valuation approaches.

- Market approach: valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.
- Income approach: valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.
- Cost approach: valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)**

33. FAIR VALUE MEASUREMENTS (Continued)**b) Valuation techniques (continued)**

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Credit Union gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

The following tables provide the fair values of the Credit Union's assets and liabilities measured and recognised on a recurring basis after initial recognition and their categorisation within the fair value hierarchy.

2020		Level 1	Level 2	Level 3	Total
	Note	\$'000	\$'000	\$'000	\$'000
Recurring fair value measurements					
<i>Financial assets</i>					
Other investments	10	-	163	-	163
Total financial assets recognised at fair value		-	\$163	-	\$163
2019		Level 1	Level 2	Level 3	Total
	Note	\$'000	\$'000	\$'000	\$'000
Recurring fair value measurements					
<i>Financial assets</i>					
Other investments	10	-	163	-	163
Total financial assets recognised at fair value		-	\$163	-	\$163

There were no transfers between Level 1 and Level 2 for assets measured at fair value on a recurring basis during the reporting period (2019: no transfers).

ABN 85 087 650 253

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

34. NEW ACCOUNTING STANDARDS ADOPTED

The Credit Union has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

AASB 16 Leases

General impact of initial application

AASB 16 Leases replaced AASB 117 Leases from 1 July 2019.

AASB 16 introduces new or amended requirement with respect to lease accounting. It introduces significant changes to the lessee accounting by removing the distinction between operating and finance leases and requiring the recognition of a right-of-use account and a lease liability at the lease commencement for all leases, except for short-term leases and leases of low value assets.

In contrast to lessee accounting, the requirements for lessor accounting have remained largely unchanged.

Details of these new requirements are described in Note 1.14, including the recognition exemptions to lease accounting as a lessee for low-value assets and short-term leases.

The impact of the adoption of AASB 16 on the Credit Union's financial statements is described below.

Financial impact on initial application

When adopting AASB 16, the Credit Union has applied the modified retrospective (cumulative catch-up) method from 1 July 2019, and therefore the comparative information has not been restated and continues to be reported under AASB 117 Leases and related Interpretations.

The impact of adoption as at 1 July 2019 on assets and liabilities is detailed below:

	Note	Original 30 June 2019 balance (under AASB 117)	Change	New 1 July 2019 balance (under AASB 16)
		\$'000	\$'000	\$'000
Right-of-use assets	20	-	1,199	1,199
Lease liabilities	20	-	(1,199)	(1,199)
Net impact		-	-	-

As at 1 July 2019, the Credit Union's right-of-use assets related to a leased property used by the Credit Union as a member service centre and head office.

The Credit Union have presented right-of-use assets and the lease liabilities on the face of the statement of financial position. The support for the additional disclosure requirements introduced by AASB 16, the financial statements have a new dedicated leasing note (refer to Note 20).

MACQUARIE CREDIT UNION LIMITED

ABN 85 087 650 253

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020
(Continued)

34. NEW ACCOUNTING STANDARDS ADOPTED (Continued)

The application of AASB 16 has also had an impact on the statement of cash flows, as detailed below:

- Short-term lease payments and payments for leases of low-value assets are including as part of operating activities, under payments to suppliers and employees;
- Cash paid for the interest portion of lease liability is included as part of operating activities; and
- Cash payments for the principal portion for lease liabilities is included as part of financing activities.

Under AASB 117, all lease payments on operating leases were presented as part of cash flows from operating activities. The adoption of AASB 16 did not have an impact on net cash flows.

The following transition methods and practical expedients within AASB 16 were applied in adopting the standard:

- The Credit Union measured the lease liability at the present value of remaining lease payments, discounted using the Credit Union's incremental borrowing rate at the date of initial application (1 July 2019). The incremental borrowing applied at 1 July 2019 was 7.56%;
- The Credit Union recognised the right-of-use asset at an amount equal to the lease liability;
- The Credit Union applied a single discount rate to the portfolio of property leases, as they were assessed as having reasonably similar characteristics;
- The Credit Union elected not to apply the requirements of AASB 16 to leases for which the assessed lease term is within 12 months of the date of initial application. These are accounted for the same way as short-term leases; and
- The Credit Union used hindsight in determining the lease term, when the contracts contained extension options.

In selecting which practical expedients to apply, the Credit Union has focused on reducing the complexity of implementation.

Reconciliation to previously reported operating lease commitments note

	\$'000
Operating lease commitments note from 2019 financial statements (gross)	1,333
Add: fixed increases not included in commitments, but included in lease liability	81
Less: discounting impact using 1 July 2019 incremental borrowing rate of 7.56%	(215)
Operating lease commitments note from 2019 financial statements (discounted)	1,199
Add: impact from inclusion of extension options that the Credit Union is 'reasonably certain' to exercise	-

35. NEW ACCOUNTING STANDARDS FOR APPLICATION IN FUTURE PERIODS

There are no new accounting standards or interpretations expected to have any significant impact on the Credit Union's financial report that are issued and not yet applicable.

36. SUBSEQUENT EVENTS

Other than the ongoing impact of the COVID-19 pandemic as described in Note 1.1 and Note 1.20, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors, to affect significantly the operations of the Credit Union, the results of those operations, or the state of affairs of the Credit Union in subsequent financial years.

37. COMPANY DETAILS

The registered office of the Credit Union is:-

Macquarie Credit Union Limited
165 Brisbane Street
Dubbo NSW 2830

(End of Audited Financial Statements)

Macquarie Credit Union Limited

Independent Auditor's Report to the Members of Macquarie Credit Union Limited

Opinion

We have audited the financial report of Macquarie Credit Union Limited ('the Credit Union'), which comprises the statement of financial position as at 30 June 2020, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of Macquarie Credit Union Limited is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Credit Union's financial position as at 30 June 2020 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards report and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Credit Union in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – uncertainties of COVID-19 impacts

We draw attention to Note 1.20 'Accounting estimates and judgments' in the financial statements. This note describes the significant areas of estimation, uncertainty and critical judgments used within the financial statements, and the increased relevance in the ongoing COVID-19 pandemic environment. Our opinion is not modified in respect of this matter.

Other Information

The directors are responsible for the other information. The other information comprises the directors' report information contained in the Credit Union's annual report for the year ended 30 June 2020, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Credit Union are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Credit Union to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Credit Union or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Credit Union's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Credit Union's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Credit Union to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during the audit.
